Subject: T. Tumlinson

Mr. Brown,

As I was about to visit _____ when I discovered _____ from Education had been in to see him to provide cardiac education. She did a social history and shared it with me: _____ has a significant cardiac family history and has been having chest pain off and on for the past 4 years. _____ has moved from job to job as a result of this intermittent chest pain and finally went to see Dr. Gaala who prescribed _____. The patient had been using the _____ so often that he ran out and called Dr. Gaala's office for a refill. The office staff told him he needed to make an appointment and be re-examined before the prescription could be refilled. They could not see him for about a week and advised him if he was feeling that bad and having chest pain to go to the ER. It is not known if they told him specifically to come to CMC ER, the patient did not say. He is scheduled for a CABG x 3 grafts per Dr. Yahagi on _____. Please let me know if you need additional information. Thanks,
